

9 Reasons for Using an Instructional Framework

1. Teachers collaboratively plan high quality lessons using a common instructional framework.
2. Learning is purposefully planned! Every strategy and practice found in a lesson was chosen for a reason.
3. Research-based learning strategies and evidence-based practices are purposefully connected in every lesson plan.
4. Teachers plan with the end in mind.
5. Clear grade-level learning goals are planned for each lesson.
6. Formative assessments are planned and used to make frequent checks on student progress toward the learning goals.
7. Teachers intentionally plan to increase the rigor and depth of learning in every lesson.
8. Specific strategies are planned and used to engage students from poverty.
9. Adjustments are planned to provide the support and additional challenge that all students need to be successful in the lesson.
